QUAKER BONNET RESTAURANT & BAKERY

175 Allen Street
Buffalo, New York

Hamilton Houston Lownie Architects, LLC transformed a former garage for plumbing supplies, which was a non-contributing building in the historic district of Allentown, into a small restaurant/bakery. This adaptive reuse project utilizes glass as an element to increase the building's curb appeal. The new restaurant will now have a one hundred eighty degree presence on Allen Street in Buffalo.

Project Size: 2,000 s.f.
Project Cost: \$300,000
Complete: Fall 2003
Client: Quaker Bonnet
