SISTERS OF ST. JOSEPH MASTER PLAN & ADDITION

Clarence, New York

Located on a 40 acres site along Main Street & Strickler Road, Hamilton Houston Lownie Architects designed a master plan for the campus, followed by the first phase implementation. The plan focused on centralizing public and communal activities, while establishing a clear hierarchy of public, semi-public, and private elements. The first phase involved the renovations of lobby and circulation spaces, along with an addition of new dining facilities which reinforce this newly planned order of hierarchy.
