KNOX LECTURE HALL CENTER

University at Buffalo - Amherst Campus
Amherst, New York

Design of a lecture hall complex located on the "Spine" of the Amherst Campus to serve graduate and undergraduate students of various academic departments.

The 39,000 s.f. structure contains an atrium with continued circulation to six lecture halls ranging in capacity from 100 to 495 students. Each lecture hall includes a projection room and preparation room.

The project includes a 160 ft. bridge from John Lord O'Brian Hall to Charles P. Norton Hall, completing the upper level circulation from the south to the "Spine".

<i>Project Size:</i>	39,000 s.f.
<i>Project Cost:</i>	NA
<i>Completion:</i>	1976
<i>Client:</i>	New York State University Construction Fund
