UPPER WEST SIDE ARTS CENTER

Buffalo, New York

Upper West Side Arts Center is envisioned as a community, multi-purpose arts center. The Center incorporates musical productions, black box theater productions, rehearsal space and artists' studios in a single facility.

Once functioning as a Presbyterian Church, this beautiful stone building is being renovated to accommodate the vision of the Arts Center. HHL's sensitive design provides flexibility and much needed accessibility while maintaining the visual integrity of the structure and surrounding neighborhood.

Project Size: NA

Project Cost: \$1,500,000

Completion: 2005

Client: Upper West Side Arts Center
